

INTERNSHIP PROJECT

General Information

- Department: **PLANNING**
- Tutor: **BUTOI DANIEL**
- Type of the project: Summer Camp
 Project work

Project title

Raw Materials WH layout improvement / flow optimization

Activities

- Raw materials WH Daily Management
- Raw materials flow Management
- Storage capacity and lay out optimization

Learning Objectives

- Understandings of the process flow/optimizations
- Describe opportunities to improve existing process.

Knowledge needed

- University degree/Faculty specialization
- Computer skills
- Language
- Other skills

Expected outputs

- Raw Materials Management
- Improvement of Raw Materials flow
- Increase Raw Materials WH capacity (storage optimizations)

Please feel free to insert some pictures to describe the process, such as:
